Function

The NETYS PR is the ideal solution for protecting small servers and high performance CAD or graphic workstations

Advantages

Professional line interactive UPS

- Assures service continuity to critical applications.
- Designed for professional applications: the sinewave inverter technology assures full compatibility with any kind of load and power supply.
- Minitower case to easily fit close to the IT load to be supplied and protected.

A solution for network power cuts and voltage fluctuations

The integrated AVR function (Automatic Voltage Regulation) stabilizes the output voltage and avoids the switching to Battery Mode operation, therefore saving the battery to support critical power cut events.

Easy to use

Control panel with graphical icons LCD allowing the operating mode to be easily monitored.

Simplified connection

Several IEC 320 sockets (IT standard) simplify the connectivity to computer and IT peripherals.

Protection for your data line

Integrated NTP protection for LAN/ADSL connection against the risk of data line overvoltage.

Connections

- 1000 VA
1. USB serial port
 2. NTP data line suppressor
 3. UPS output sockets

- 1500 / 2000 VA
4. Input socket and fuse
 5. Fan / air vents
